## Career Summary

Originally a graphic designer with a Bachelor's Degree in 2005, starting out as a Flash animator, which led to Actionscript development projects, and eventually a full time Actionscript, Flash and AIR development career. Due to the similarities between AS and Javascript, I was able to transition smoothly to HTML5 as it became the industry standard. UC Berkeley certified full-stack developer as of 2021.

## Technical Skills:

**Front-end**: React, Jquery, Bootstrap, CSS, Styled Components,Html5,WebGL
**Back-end**: Node.js, Express.js, SQL, MongoDB,Sequelize, Mongoose,graphql
**Languages**: Javascript, Java, C#, php
**Applications**: Visual Studio, Xcode, Android Studio
**Tools**: git, github, npm

## Projects

### Employment App

https://stark-atoll-20406.herokuapp.com/ | https://github.com/gtankha/employment-app
- Project Summary: "Tinder for employers and job seekers"
